SUMMARY

I am a Data Science student with a strong foundation in statistics, machine learning, and Data Visualization. Proficient in Python, SQL, and Data Visualization tools like Power BI. Experience in working with real-datasets through academic projects and internships, with a keen interest in turning data into actionable insights.

WORK EXPERIENCE (Virtual Internships)

- UBER Co-certified by AIMERZ (Remote)
- Data Science & Analytics InternAugust 2025 – September 2025
- Analyzed Uber NYC taxi dataset to identify key factors (distance, time, day) influencing fare amounts.
 - Performed data cleaning, feature engineering (Haversine distance, datetime features), and exploratory data analysis.
- AICTE & EduSkills in collaboration with AWS Academy (Virtual Internship)
- Data Analytics InternJanuary 2025 – March 2025
- Successfully completed a **10-week virtual internship** focused on Data Engineering fundamentals and tools using curriculum designed by AWS Academy.
 - Gained hands-on knowledge in data pipelines, cloud infrastructure, ETL processes, and data transformation techniques relevant to real-world scenarios.

PROJECTS

- Biomedical Image Segmentation using Deep LearningJanuary 2026 – March 2025
- Performed data preprocessing, augmentation, and normalization to improve model performance.
 - Evaluated model using metrics such as Dice Coefficient, IoU (Intersection over Union), and accuracy.
 - Developed a deep learning model for biomedical image segmentation to identify and segment regions of interest (e.g., tumors/organs) from medical images.
- Predicting Uber NYC Taxi Fares using Regression AnalysisAugust 2025 – September 2025
- Analyzed Uber NYC taxi dataset to identify key factors affecting fares
 - Performed data cleaning & preprocessing
 - Built and evaluated multiple regression models - Linear Regression, Ridge/Lasso, and Random Forest.

SKILLS SUMMARY

- Languages:** Python, MySQL, JavaScript, HTML, CSS, Nodejs
- Libraries:** Pandas, NumPy, Matplotlib, ReactJs, ExpressJs, Mongo DB
- Tools:** Git, GitHub, Power BI, Tableau, Data Tools
- Soft Skills:** Excellent communication, Problem Solving, Team Management, Decision Making

EDUCATION

- Hindustan College Science and Technology (Final year)
- BTech in Computer Science(Data science) : GPA: 7.2September 2022 - August 2026
- University model school (C.B.S.E.)
- XII class Science Steam (PCM) : PERCENTAGE 70April 2021 – March 2022
- ST. Mark's Public School (C.B.S.E.)
- X : PERCENTAGE : 80April 2019 – March 2020

CERTIFICATION & ACHIEVEMENTS

- Data structure in Python | AimerzAugust 2025
- Data science and Gen AI | AimerzAugust 2025
- Data analytics | DeloitteMarch 2025
- AWS Academy Data EngineeringFebruary 2025
- Python for beginner | UdemyMay 2024
- Python for Data Science | IBMMarch 2024
